TECHNICAL DATASHEET

TERRACE WASH	
Product size	4 L
Description	Very effective terrace cleaner for e.g. very dirty wood and yard stones.
Color	Transparent
TECHNICAL DATA	
Spreading capacity	Approx. 15 m²/l
Density	Approx. 1,02 kg/l
Tool cleaning	Water
Shelf-life	5 years
Storage	Protected from frost.

FEATURES

Very effective detergent, which is used to clean very dirty wood, yard stone, etc. Due to the slightly gelatinous composition of the detergent, the duration of effect is longer.

APPLICATIONS

Removes discoloration, algae, dirt, deposits and old wood oil from previously treated surfaces, such as terraces and garden furniture.

INSTRUCTIONS

USAGE

Protect sensitive surfaces and plants. Moisten the surface and apply the terrace wash with a hard brush to 2-3 m² at a time, let it act for approx. 10 minutes. Do not let the surface dry! Work the surface with a brush and rinse thoroughly with a high pressure washer. Detergent residues must not be left when treating wood with wood oil or paint. Repeat the process if necessary.

TDS

Updated: 27.07.2022

After washing the terrace, the terrace should be treated with wood oil.

NOTE! Can corrode surfaces sensitive to alkaline substances such as glass, aluminum, etc.

SAFETY

Be careful not to get the substance on the skin or in the eyes. Use rubber gloves and safety glasses when applying and removing the product.

See Safety Data Sheet.

ENVIRONMENTAL PROTECTION AND WASTE DISPOSAL

Liquid detergent must be delivered to a local hazardous waste disposal plant. Empty and dried packaging for normal waste collection.
