Raw material	Food grade white mineral oil. Paraffin oil that does not contain other oils.
Density	0,89 kg / L
Lowest operating temperature	+5 °C degrees
Tools	Brush, sponge or clean cloth.
Tool cleaning	Soap and warm water
Drying time	Depends on the porosity of the wood.
Shelf-life	At least a year.
Storage	Sealed packaging and protected from frost.

FEATURES

Food grade, colorless and completely odorless protective agent. The oil does not dissolve in water and does not form a film. The product is not flammable or hazardous to health. The oil is colorless, but it deepens the natural tone of the wood surfaces.

APPLICATIONS

Suitable for protecting untreated wooden surfaces, such as heat-treated panels and timber, kitchen work-

tops and cutting boards, and sauna benches from dirt and impurities. Try the oil on a small area first to make sure the result meets your expectations.

INSTRUCTIONS

USAGE
Wash the wooden surface well and let it dry completely. Apply a thin layer of oil with a brush, sponge or clean cloth. Allow to absorb for some time and apply another layer. After drying, the excess oil is wiped off with a clean cloth. The oil treatment dries to its final shade within a few days. Clean tools with soap and water.

SAFETY
The product is not classified as dangerous (see Safety Data Sheet).

ENVIRONMENTAL PROTECTION AND WASTE DISPOSAL
Recyclable packaging. Empty and dried packaging for normal waste collection and otherwise local hazardous waste disposal plant.
