INSTRUCTIONS

USAGE

Apply with a cloth or brush and wipe off excess oil after 1 hour. New or dried wood requires repeated treatments, but the oil must harden (9-12 hours) between each use. Oil sanding: A professional finish is obtained if another layer of wet oil is sanded on the surface. Sand along the grain and wipe off excess oil after 15 minutes.

SAFETY

DANGER: Contains: Aliphatic hydrocarbons: can be fatal if swallowed and inhaled. Flammable liquid and vapor. Contains 2-butanone nioxime and fatty acids, branched (C6-C19), cobalt (2+) salts: may cause an allergic reaction. (See Safety Data Sheet)

WARNING: Keep away from heat, hot surfaces, sparks, open flame and other sources of ignition. No smoking. Store in a well-ventilated place. Used rags can spontaneously combust, so they should be soaked in water and packed airtight in aluminum foil or a plastic bag before disposal. Keep away from children.

IF THE CHEMICAL IS SWALLOWED: Contact a POISON INFORMATION CENTRE or doctor immediately. Do not induce vomiting. If medical advice is needed, have the product packaging or label at hand.

ENVIRONMENTAL PROTECTION AND WASTE DISPOSAL

Plants and soil must be properly protected during work. Recyclable packaging. Empty and dried packaging for normal waste collection and otherwise local hazardous waste disposal plant.
