## MULTI-USE OIL MX-900

Package sizes	400ml
Description	High quality synthetic lubricating oil. Suitable for lubrication and protection of metal and plastic parts.

## TECHNICAL DATA

Composition	Synthetic oil
Color	Translucent light brown
VOC content	Approx. 82 %
Relative density (20°C)	0,80 g/ml
Pressure (20°C)	3–4 bar
Temperature resistance	-50°C ... +200°C
Shelf-life	10 years

## FEATURES

- Excellent penetration ability
- Lubricates and cleans at the same time
- Moisturizing
- Prevents corrosion
- Leaves a thin protective film
- Accurate pressure spray

## USAGE

The aerosol should be at room temperature. The operating temperature should be +5°C ... +30°C. Shake before use. Apply oil to the surface to be treated. Optimal lubrication is obtained after evaporation of the solvent. Repeat if necessary.
